

ADWAID KRISHNA

MERN Stack Developer | Kozhikode, Kerala, India

Email: adwaidkrishna2@gmail.com | Phone: +91 62389 37357 | GitHub: github.com/Adwaidkrishna

PROFESSIONAL SUMMARY

Self-taught MERN Stack Developer with comprehensive training in building secure, responsive web applications. Specialized in React.js, Node.js, Express.js, and MongoDB.

MERN STACK TRAINING

makBig - MERN Stack Development Trainee Oct 2025 - Present | Calicut, Kerala

- Acquired strong foundations in MongoDB, Express.js, React.js, and Node.js.
- Built responsive frontend layout components and customized React interfaces.
- Developed secure, modular backend RESTful APIs and handled data structures.
- Debugged application flows and resolved critical performance bottlenecks.

PROJECTS

URBANIQ - Full-Stack eCommerce Platform Featured Project | Live: urbantiq.store

- Built a full-stack eCommerce application with advanced inventory and stock management.
- Integrated Razorpay secure payment gateway, user wallet system, and order tracking.

TypePro - iOS-Style Typing Web App GitHub: github.com/Adwaidkrishna/typvora

- Replicated mechanical typing key sound and fluid caret indicators in Vanilla JavaScript.
- Managed application state via the MVC architectural pattern and charted stats via Chart.js.

Backend Authentication System GitHub: github.com/Adwaidkrishna/badge-task

- Built backend REST API endpoints using JWT token sessions and bcrypt password hashing.

Netflix UI Clone - Front-End Project GitHub: github.com/Adwaidkrishna/netflix

- Replicated Netflix landing page and login screen layouts with HTML, CSS, and Bootstrap.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries: React.js, Express.js, Node.js, Bootstrap

Databases & Tools: MongoDB, Git, GitHub

EDUCATION

Model Polytechnic College, Vadakara

Jul 2021 - May 2024

Diploma in Electrical & Electronics Engineering
